

Product update of the TRAPtest VKP trap testing system

VKP 41*plus* offers greater customer advantages through its updated software and hardware

The GESTRA TRAPtest VKP 40*plus* system has been fundamentally modified so that it satisfies the requirements of modern computer-aided testing systems. Firstly, the new version of PC user software, GESTRA TRAPtest VKP 3.1, provides more extensive services; secondly, the compact and robust data collector uses future-oriented technology to enable easier handling. The measuring transducer and Bluetooth® Com box from the VKP 40*plus* system continue to be used.

Features

- ▶ Quick check und normal testing
- ▶ Database suitable for more than 20,000 test objects
- ▶ Automatic calculation of CO2 emissions
- ▶ Comprehensive data import and export function
- ▶ Large selection of adaptable report forms

User software TRAPtest VKP 3.1

- ▶ Suitable for MS Windows® 10
- ▶ Compatible with VKP 40, VKP 40*plus*
- ▶ New software architecture with extended analytical capabilities
- ▶ Improved operating concept

Data collector

- ▶ Very bright, capacitive multi-touch 4" colour display for safe operation even with wet fingers or gloves
- ▶ Automatic language adaptation for more than 20 languages
- ▶ Stores up to 2,500 test objects
- ▶ Camera function
- ▶ Telephone function
- ▶ Degree of protection IP 68
- ▶ Li-ion battery 4,800/3,600 mAh
- ▶ VKP 41*plus* Ex for potentially explosive atmospheres
- ▶ USB data cable for connection to a PC or laptop

Measuring transducer

- ▶ Ultrasonic sensor with integrated temperature measurement -10 to 350 °C

Com box

- ▶ Bluetooth® data transmission to the data collector
- ▶ Li-ion battery 1,250 mAh
